Meeting Objectives:

- 1) Review May 2007 Action Items
- 2) BuildingSMARTalliance, the National Building Information Model Standard, COBIE
- 3) Report progress of actions from the DWG Members on the pending UFGS changes submitted by NASA
- 4) Status Report of Edited Sections
- 5) Review 01 33 00 – Submittal Procedures
- 6) Review Procedure / Timeline/ Enforcement
- 7) Sections that conflict with UMRL
- 8) Action Items

Discussion Summary:

Subject 1: Review May 2007 Action Items

- 1) Reviewed status from previous UFGS Working Group meetings.

UFGS Working Group Meeting Minutes

Subject 2: BuildingSMARTalliance, the National Building Information Model Standard, COBIE

- 1) The [BuildingSMARTalliance](#) began approximately 1½ years ago.
- 2) Bill Brodt informed the UFGS Working Group that the first Journal of Building Information Modeling will soon be released. This journal will be published twice a year.
- 3) Presentation Comments for Bill Brodt.
 - a) Steve Freitas recommended that Quality Analysis should be Performance Analysis on the Turning Waste into Value slide.
 - b) The Construction Operations Building Information Exchange (COBIE) – Changing the Business Process. Note the contractor provides in the closeout submittals. Follow-up needs to be done with Bill East and Haskell Barker with the RMS group. Bill needs to add Haskell Barker into his COBIE List.
- 4) The Architectural Data Systems (ADS) Begins SpecsIntact Integration. (see Bill's Note on this slide) Jim Whitehead stated he had made several attempts to speak with the programmer since the integration is not complete.
 - a) Jim Whitehead has been providing assistance to ADS so that they can develop an interface to SpecsIntact and the UFGS from the ADS software. When complete, this interface would allow ADS users to create SpecsIntact projects automatically at the same time they create ADS projects, and to automatically pull relevant UFGS specifications into their SpecsIntact projects when they add corresponding worksheets to their ADS projects. ADS users would also be able to launch the SpecsIntact Editor to edit these project specs from the corresponding ADS worksheet. No automatic editing of SpecsIntact sections would be possible in the initial release of this interface, but this would be considered for future releases.
 - b) This effort is ongoing. Jim Whitehead will follow-up with the ADS programmer to find out the status of this effort and of some corrections that Mr. Whitehead had requested from ADS.
- 5) At this time, COBIE has not been working with the US Green Building Council (USGBC) but primarily with the Sustainable Building Council.

Subject 3: Change Notice Tags <CHG>

- 6) Recommendation was presented at the meeting to discontinue the use of Change Notice Tags throughout the UFGS.

UFGS Working Group Meeting Minutes

- a) The SI-CCCB Members agreed to remove the requirement and use of Change Notice Tags from the UFC 1-300-02 and UFGS database.

Remove the following statement from Section Banners prior to the January 2008 release:
Latest change indicated by CHG tags

Subject 4: Status Report of Edited Sections

Status and Chronology of Merged (but not posted) UFGS Specifications Implemented by SGS-DE

UFGS Working Group Meeting Minutes

Subject 5: Review 01 33 00 ~ Submittal Procedures

- 1) Comment 1: SI-CCCB Members agreed to Change the Navy Tailoring Option to: "Do not use this section for NAVY DB projects. Use the DB specs in the NAVFAC DB Maser posted within the Whole Building Design Guide".
- 2) 1.2 SUBMITTALS
 - a) Remove all <TAI OPT = NAVY> that includes "in Division I" from the note
- 3) Subpart 1.1.1
 - a) Add LST tags around Network Analysis Schedule (NAS)
 - b) Remove the periods after each LST item
 - c) Remove Bracketed item: [If no cost loaded, Network Analysis Schedule required].
- 4) Subpart 1.5
 - a) Remove "Verify with the Contracting Officer the number of submittals required"
- 5) Within the Banner modify the month and date for the Section Reference and the Superseding date.
- 6) Subpart 1.8
 - a) Column F: Delete Bracketed sentence
 - b) Also, delete the Note: Use bracketed sentence below for Navy projects only.
- 7) Subpart 1.9.1
 - a) Change "Use the subsequent paragraphs for NAVFAC projects only" to "Use this subpart for NAVFAC projects only".
 - b) Copy this note and paste it in 1.9.2 and 1.9.3
- 8) Subpart 1.9.4 Add note "Use this subpart for Army projects only."
- 9) Subpart 1.12
 - a) In the text paragraph change the Tailoring Option for Construction, add a Tailoring Option for "Army and Navy". Do that for both the tailoring options at the beginning of this paragraph.
 - b) Replace 1.3.4 with Subpart 1.7
 - c) Move 1.3.4 to 1.3

Subject 6: Review Procedure / Timeline / Enforcement

- 1) The UFGS Review Process is included in the Standard Practice for Unified Facilities Criteria and Unified Facilities Guide Specifications MIL-STD-3007F.
- 2) When sending emails for review, refer to MIL-STD-3007F and identify the procedure for review.
- 3) If no response is received within 20 days, email Pete, Carl and Frank. They need to follow-up.
- 4) Database Managers need confirmation from Pete, Carl, and Frank cc the Database Managers on the approval message.
- 5) Steve Freitas suggested SGS use MS Outlook as a standard in order to add a reminder to the recipients' message.

UFGS Working Group Meeting Minutes

6) It was stated that the DWG should also be cc'd in these emails.

Subject 7: Sections That Conflict With the Unified Master Reference List (UMRL)

- 1) A discussion was held regarding the status of the UMRL.
 - a) The UMRL as a whole is much better than it has been in the past.
 - b) NAVFAC and SGS cannot obtain the latest version of the UMRL due to user permissions.
 - c) The development team will implement a change to download the UMRL to a writeable location other than the Software directory to avoid these users from not having the most current UMRL.
